# Mobility Aids

## Canes

McKesson canes provide a convenient, affordable and lightweight mobility solution for those who experience pain, weakness or mild balance issues that make walking difficult. McKesson offers a selection of canes in a variety of colors, heights, materials, handle types and base types. Quad canes are ideal for users who require more stability and support. Unlike most walkers, standard-style canes and small-base quad canes generally fit on an average depth stair. McKesson also offers convenient folding canes for ease of portability and storage. McKesson canes deliver ease of use, convenient height adjustability and reliable performance.

### Features and Benefits

#### Folding T-Handle Aluminum Cane

- Manufactured with durable extruded aluminum tubing to support users up to 300 lbs
- Standard-style cane for enhanced maneuverability allowing use in narrow spaces such as staircases
- Folds into four convenient parts and includes plastic carry case for easy travel and storage
- Intuitive push-button design enables easy height adjustments in 1-inch increments from 33 to 37 inches
- Attractive wood handle with brass collar
- T-shaped handle designed to provide secure grip and better distribute weight over the cane
- Available in black and bronze
- Made without natural rubber latex
- HCPCS: E0100

Item #3752896

#### Satisfaction Guaranteed

If you are not completely satisfied with any McKesson Brands product, you may return it for a full refund or credit.

#### Never Compromise on Care<sup>SM</sup>

With McKesson Brands, you'll never have to compromise. We deliver quality products at competitive prices, backed by our 100% satisfaction guarantee. ## Features and Benefits

### Round-Handle Aluminum Cane

- Simple design with scratch-resistant chrome finish
- Smaller than standard canes, round handle with vinyl grip designed for user comfort and to accommodate small hands
- Manufactured with durable extruded aluminum to support users up to 300 lbs
- Intuitive push-button design allows easy height adjustments from 29.75 to 38.75 inches
- Locking ring prevents rattling
- Made without natural rubber latex
- HCPCS: E010

Item #3752987

### Offset-Handle Aluminum Cane

- Manufactured with durable extruded aluminum tubing to support users up to 300 lbs
- Ergonomically designed offset handle with soft foam rubber grip and wrist strap to reduce hand pressure and increase stability
- Offset handle designed to effectively aid walking by better distributing weight over the cane
- Intuitive push-button design enables easy height adjustments from 30 to 39 inches
- Locking ring prevents rattling
- Made without natural rubber latex
- HCPCS: E0100

Item #3752912

### Offset-Handle Steel Cane

- Manufactured with heavy-duty steel tubing to support users up to 500 lbs
- Ergonomically designed offset handle with vinyl contoured grip and wrist strap for durability, comfort and convenience
- Offset handle designed to effectively aid walking by better distributing weight over the cane
- Easy-to-use, dual-button height adjustment enables handle heights from 29.75 to 37.75 inches
- Locking ring prevents rattling
- Made without natural rubber latex
- HCPCS: E0100

Item #3752946

## Features and Benefits

### Small-Base Quad Cane

- Quad cane style provides greater stability than standard canes
- Small base to balance the maneuverability of a standard-style cane and the stability of a large-base cane
- Stand-alone capability for convenience when not in use, easily balances without requiring surface to lean on and does not require user to bend to pick up from the floor
- Intuitive push-button design with locking bolt provides quick and secure height adjustments from 30 to 39 inches
- No assembly required
- Made without natural rubber latex
- HCPCS: E0105

Item #3752961

### Large-Base Quad Cane

- Quad cane style provides greater stability than standard canes
- Large base maximizes cane stability
- Stand-alone capability for convenience when not in use, easily balances without requiring surface to lean on and does not require user to bend to pick up from the floor
- Intuitive push-button design with locking bolt provides quick and secure height adjustments from 29 to 37.5 inches
- Manufactured with steel construction for lasting support
- No assembly required
- Made without natural rubber latex
- HCPCS: E0105

Item #3752953

## Crutches

McKesson's push-button crutches feature durable construction; comfortable, adjustable padded hand grips; and contoured underarm pads. The convenient and intuitive push-button design allows you to quickly adjust the height in one-inch increments. Non-skid tips provide excellent traction and stable performance. McKesson crutches are available in child, youth, adult and tall sizes.

### Features and Benefits

#### Push-Button Aluminum Crutches

- Lighter than wood, the aluminum crutch provides stability and durability
- Double-extruded center tube provides additional strength to weight-bearing area
- Pushpin adjustment makes it easy to adjust crutch height in 1" increments
- Non-skid, jumbo-size vinyl contoured tips provide excellent traction
- Easy wing nut adjustments for hand grips
- Made without natural rubber latex

#### Push-Button Steel Crutches

- Exceptionally durable, steel construction provides support for up to 500 lbs. making it ideal for bariatric care
- Push buttons easily adjust height in 1" increments
- Comfortable, contoured underarm design
- Easy wing nut adjustments for hand grips
- Large, non-skid jumbo-size vinyl contoured tips
- Made without natural rubber latex

## Rollators

McKesson rollators are ideal when arm strength is limited. Rollators, unlike standard walkers, do not require users to lift the unit with each step and they also include brakes to maintain control. With convenient storage and seating, our rollators allow users to transport personal items without requiring the use of hands and provide the ability for users to sit or rest. Choose McKesson's rollators as a mobility solution for the enhanced maneuverability across various terrains that will keep users moving smoothly and safely.

## Features and Benefits

### Lightweight Rollators

- Aluminum frame construction safely supports users up to 300 lbs
- 13-pound, lightweight design with folding capabilities for easy storage and portability
- Ergonomically designed handles are easy to grip, reduce hand pressure, and are adjustable to accommodate users' height and preferences
- Oversized padded seat and backrest are made of strong polyurethane material for durability, have a contoured design for ergonomic comfort, and provide cut and split resistance to prevent rubbing and irritation
- Hinged padded backrest can be folded up, down or removed
- Deluxe loop-lock system operates like a bicycle hand brake to slow down or temporarily stop and easily locks into stationary position by pushing handle into down position
- Swiveling, 6-inch caster wheels with soft-grip tires are non-marking and add stability and control for indoor and outdoor use
- Serrated-edged brakes provide firm hold
- Includes convenient zippered storage pouch on the bottom of the seat and spacious vinyl carry pouch below for transporting personal items with added privacy and security
- 14-inch seat width; 20-inch seat-to-floor height
- Made without natural rubber latex
- HCPCS: E0143, E0156

Item #3753654

## Rollators

### Features and Benefits

#### Durable Rollators

- Steel frame construction safely supports up to 300 lbs
- Designed with folding hinge for easy storage and portability
- Ergonomically designed handles are easy to grip, reduce hand pressure, and are adjustable to accommodate users' height and preferences
- Lever allows for independent handle height and angle adjustment
- Oversized padded seat and backrest are made of strong polyurethane material for durability, have a contoured design for ergonomic comfort, and provide cut and split resistance to prevent rubbing and irritation
- Hinged padded backrest can be folded up, down or removed
- Deluxe loop-lock system operates like a bicycle hand brake to slow down or temporarily stop and easily locks into stationary position by pushing handle into down position
- Swiveling, 7 1/2-inch, non-marking casters are ideal for indoor and outdoor use
- Seat folds up to conveniently access hanging basket for ease of transporting personal items.
- 12-inch seat width; 21-inch seat-to-floor height
- Made without natural rubber latex
- HCPCS: E0143, E0156

Item #3753696

## Rollators

### Features and Benefits

#### Heavy-Duty Rollators

- Exceptionally strong steel frame construction safely supports bariatric users up to 400 lbs
- Designed with folding hinge for easy storage and transport
- Ergonomically designed handles are easy to grip, reduce hand pressure, and are adjustable to accommodate users' height and preferences
- Self-threading knob allows easy, tool-free handle height adjustment
- Oversized padded seat and backrest are made of strong polyurethane material for durability, have a contoured design for ergonomic comfort, and provide cut and split resistance to prevent rubbing and irritation
- Hinged padded backrest can be folded up, down or removed
- Deluxe loop-lock system, made of internal aluminum casting, operates like a bicycle hand brake to slow down or temporarily stop and easily locks into stationary position by pushing handle into down position
- Swiveling, 8-inch caster wheels with soft-grip tires are non-marking and add stability and control for indoor and outdoor use
- Seat folds up to conveniently access the spacious vinyl carry pouch below the seat for transporting personal items with added privacy and security
- 19-inch seat width; 22-inch seat-to-floor height
- Not made with natural rubber latex
- HCPCS: E0149, E0156

## Walkers

Decreased mobility doesn't have to mean the loss of independence. McKesson walkers are a convenient and affordable mobility solution for users who have difficulty with balance or standing, suffer arthritic pain, or experience fatigue or shortness of breath from walking. Walkers are commonly preferred for stability and balance. McKesson walkers feature lightweight construction and a push-button release mechanism for easy folding and storage. Choose McKesson walkers for durability, convenience and comfort.

### Features and Benefits

- Sturdy, 1-inch aluminum A-frame construction is lightweight without sacrificing durability for patients up to 300 lbs
- Steel legs and side braces maximize durability and strength to support patients up to 500 lbs (applicable models only)
- Push-button, dual-release mechanisms for easy folding using fingers, palms or side of hand to accommodate users' abilities and travel convenience
- Rubber-like tips made of polyurethane blend to provide better grip than standard walkers
- 5-inch front wheels and rear glide caps allow walker to slide easily and smoothly over most surfaces (only for walkers with wheels)
- Adjustable height and vinyl-contoured hand grips
- U-shaped frame provides greater clearance and the cross frame design offers improved stability
- Available in adult and junior sizes
- Made without natural rubber latex

Item #3753563

## Wheelchairs

McKesson wheelchairs are ideal for patients who have difficulty walking due to illness, injury or disability. McKesson offers a comprehensive selection of wheelchairs that promote patient independence, improve mobility and enhance quality of life. With durable construction, easy-to-adjust footrests, and lightweight, easy-to-clean upholstery, McKesson wheelchairs provide long-lasting performance and comfort. Dual axle options provide easy transitions to hemi-level seat height to allow users to propel the wheelchair with their feet. Choose a McKesson wheelchair based on arm style, footrest preferences, reclining options, size, and weight capacity.

### Features and Benefits

#### Standard Wheelchairs

- Carbon steel frame with a textured, silver-vein finish for enhanced visual appeal and ease of maintenance
- Embossed vinyl upholstery is durable, lightweight, attractive and easy to clean
- Urethane tires are mounted on composite wheels to provide durability and a smooth ride over most surfaces
- 8-inch front casters are adjustable in three positions
- Convenient carry pouch for transporting personal items
- Not made with natural rubber latex

Item #3753738

#### Lightweight Wheelchairs

- Carbon steel frame with a textured, silver-vein finish for enhanced visual appeal and ease of maintenance
- Nylon upholstery is lightweight and breathable for user's lasting comfort
- Urethane tires are mounted on mag-style composite wheels to provide durability and a smooth ride over most surfaces
- Precision-sealed wheel bearings in front and rear ensure long-lasting performance and reliability
- 8-inch front caster wheels provide a smooth ride over most surfaces
- Flip-back attachable armrests for patient comfort and easy transfer
- Made without natural rubber latex

# Bath Aids

## Bath and Transfer Benches

With hard surface areas that get wet and slippery, the bathroom is the most dangerous room in the house for slips and falls. Bathrooms are the most used and most hazardous areas of a home. According to the Centers for Disease Control and Prevention, nearly 70% of nonfatal bathroom injuries for patients aged 15 and older occurred around the bathtub or shower. McKesson bath and transfer benches feature non-skid tips, durable construction and convenient drainage holes. These products fit most standard tubs and are designed to help reduce the risk of slipping or falling while bathing. McKesson's bath transfer benches fit over the edge of the bathtub, enabling a person with limited mobility to safely enter the tub while remaining seated. Models are available with additional features such as removable or reversible backs and handles or adjustable heights to accommodate users' individual needs and preferences.

### Features and Benefits

#### Premium Plastic Bath Chair

- 1/2-inch leg adjustments accommodate uneven surfaces and height preferences with an indicator window displaying the chosen level
- Enhanced, comfort seat fits most shapes and sizes
- Premium plastic material with large, stable legs and non-slip feet to provide lightweight design without sacrificing security and support
- Removable back, legs and arms for convenient storage and travel
- Easy-to-clean, all-plastic design provides solution against rusting and buildup
- Tool-free assembly
- Retail packaging
- Made without natural rubber latex

Item #3753936

#### Satisfaction Guaranteed

If you are not completely satisfied with any McKesson Brands product, you may return it for a full refund or credit.

#### Never Compromise on Care<sup>SM</sup>

With McKesson Brands, you'll never have to compromise. We deliver quality products at competitive prices, backed by our 100% satisfaction guarantee. ## Commode Chairs

McKesson commode chairs serve as portable toilets to be placed for easy access when needed to maintain dignity and independence. Commodes are ideal for users who cannot get to the bathroom due to limited mobility. The 3-in-1 design, featuring durable construction, removable buckets and secure arm rails, enables the product to be used as a bedside commode, a raised toilet seat or a toilet safety frame.

### Features and Benefits

#### Standard Folding Steel-Frame Commode

- 3-in-1 design for use as a bedside commode, raised toilet seat or toilet safety frame
- Powder-coated, steel-welded construction maximizes strength and durability to support up to 350 lbs
- Intuitive push-button design allows you to quickly adjust the height without tools
- Folds for convenient storage and transportation
- Plastic armrests add comfort, safety and support
- Durable plastic snap-on seat and lid
- Includes 7.5-quart commode bucket with carry handle, cover and splash shield
- Non-skid rubber tips for added security and safety
- Tool-free assembly
- Made without natural rubber latex
- HCPCS: E0163

## Grab Bars and Bathtub Safety Rails

McKesson grab bars and safety rails are an essential bath safety solution for users of all ages. The Centers for Disease Control and Prevention strongly advises adding grab bars inside and outside showers and tubs and next to toilets — not only to help individuals with limited mobility and issues with balance or standing, but also as a proactive method of injury prevention. Choose McKesson’s grab bars for a safer bathroom environment. Installing grab bars or safety rails is an affordable safety measure to help prevent accidents, provide support, improve stability, and enhance a patient’s independence and confidence.

### Features and Benefits

#### Grab Bars

- Designed to assist you in balancing and shifting your weight in and out of the bath or shower
- Provides added safety and support to any room in the house
- White, powder-coated steel construction is durable, attractive and easy to clean
- Mounts vertically or horizontally using hardware included
- 1-1/2 inch distance from wall when mounted
- Retail packaging
- Made without natural rubber latex
